1981-1982

Ce rapport a été préparé conjointement par le ministère et par le personnel des services d'orientation et de placement des vingt-deux collèges d'arts appliqués et de technologie de l'Ontario.

Colleges of Applied Arts and Technology

Collèges d'arts appliqués et de technologie

Introduction

The economic situation of the early part of 1982 had an adverse effect on the job-seeking activities of the 1982 graduates of colleges of applied arts and technology. Despite the difficult conditions, however, the job-finding success of the college graduates remains relatively high.

This report portrays, statistically, the job placement experience of the 1982 graduates of post-secondary programs at Ontario's twenty-two colleges of applied arts and technology. The report contains data for individuals who graduated during the period from September 1981 to August 1982, inclusive. The data were collected from graduates up to and including November 12, 1982. It should be noted that graduates in many health science programs (i.e., nursing, radiography) are not available for work until early fall and as a result have a shorter period of time within which to find employment, for the purposes of this report.

The report is designed as a resource for students in selecting college programs and for counsellors in advising students on program selection and career planning. It is a provincial overview, current as of November 12, 1982.

Local or regional employment patterns may vary considerably from the province-wide data published here. Therefore, to obtain a more accurate picture of employment opportunities in a certain area, it is advisable to contact the placement office at your local college for detailed information about programs and employment trends in the region. The staff of each placement office spends a great deal of time and effort compiling the data for this report and as a result will have more pertinent information for its own geographic area on various specific topics (i.e., location of jobs, types of employers, economic trends affecting jobs, salaries, etc.).

Introduction

Au début de l'année 1982, la situation économique était défavorable aux élèves des collèges d'arts appliqués et de technologie diplômés en 1982 qui cherchaient un emploi. Toutefois, malgré les difficultés, le nombre de diplômés des collèges qui ont trouvé un emploi demeure relativement élevé.

Le Rapport sur le placement des diplômés présente des données statistiques sur les emplois occupés par les élèves des vingt-deux collèges d'arts appliqués et de technologie de l'Ontario diplômés de 1982. Ces données se rapportent aux personnes qui ont obtenu leur diplôme entre septembre 1981 et août 1982 inclusivement. Elles ont été recueillies auprès des diplômés jusqu'au 12 novembre 1982 inclusivement. On doit tenir compte en examinant ce rapport du fait que les diplômés de nombreux programmes de sciences de la santé (sciences infirmières, radiographie, etc) ne peuvent pas commencer à travailler avant le début de l'automne et ont donc eu moins de temps pour chercher du travail.

L'objet de ce rapport est, d'une part, d'aider les élèves à choisir des programmes de niveau collégial et, d'autre part, de permettre aux orienteurs de les guider dans le choix de leurs cours et la planification de leur carrière. Les données qu'il contient donnent une vue d'ensemble de la situation dans la province au 12 novembre 1982.

Ces données représentent la situation à l'échelle provinciale. Le marché de l'emploi dans des localités ou des régions particulières peut en différer sensiblement. Par conséquent, pour avoir une meilleure idée des possibilités d'emploi offertes dans une région donnée, il est préférable de contacter les services de placement de votre collège. Ils vous fourniront des renseignements détaillés sur les différents programmes ainsi que sur les tendances du marché du travail dans la région. Les services de placement consacrent beaucoup de temps et d'efforts à la compilation des renseignements publiés dans ce rapport; ils disposent probablement d'une information qui reflète mieux la situation locale : où trouver un emploi, types d'employeurs, influence des tendances économiques sur le marché de l'emploi, salaires, etc.
